# MUDRA

Civil Engineering & Consultancy

“Building the Future with the Spirit of Swarajya.”

# ABOUT US

MUDRA Engineering & Consultancy is a Pune-based structural engineering firm driven by innovation, precision, and a commitment to quality. The name MUDRA stands for Monitoring, Upgrading, Design, Rehabilitation & Assessment, embodying our integrated approach to every project. We strive to deliver engineering solutions that reflect strength, reliability, and integrity.

## VISION

- To establish a strong global presence as a trusted and innovative engineering consultancy
- To deliver world-class structural solutions that uphold safety, sustainability, and quality
- To continuously advance engineering practices through technology, research, and precision.
- To contribute to building resilient and future-ready infrastructure worldwide.
- To ensure every structure we design reflects integrity, durability, and engineering excellence.

## MISSION

- Deliver high-quality structural engineering services that align with international standards of safety, sustainability, and performance.
- Provide innovative and cost-effective solutions in structural design, audit, testing, and rehabilitation.
- Foster long-term client relationships built on trust, transparency, and professional integrity.
- Contribute to global infrastructure development by promoting resilience, durability, and technical excellence in every project.

# Our Services

## STRUCTURAL AUDIT

## STABILITY CERTIFICATE / FACTORY ACT CERTIFICATE ( AS PER INDUSTRY STANDARDS )

## ESTIMATION & COSTING

## REPAIR & STRENGTHENING CONSULTANCY

## STRUCTURAL DESIGN

- PEB Structure
- Steel Structure
- RCC Structure

## NON DISTRICTIVE TESTING

### ON RCC STRUCTUE :-

- Rebar Scanning.
- Rebound Hammer.
- Ultrasonic Pulse Velocity Test.
- Carbonation Depth Test.
- Concrete Core Test.
- Half-Cell Potential Test
- Vibration Meter Test

### ON STEELMEMBERS :-

- Ultrasonic Thickness Gauge test
- DYE/Liquid Penetration test
- Flow Detection Test
- Vibration Meter Test
- Magnetic Partial Test

### ROAD / PAVING SURFACE :-

- Skid Resistance Test

## ERECTION / SHOP TICKET DRAWING ( DETAILING & DRAFTING )

- Precast Members
- Double T
- Column
- Spandrel
- RBS
- Shear wall
- Hollow Core
- Lumber Project

## AS BUILT DRAWING

- Residential/ Commercial/ Industrial buildings
- Infrastructure Projects (Tunnels, Roads and Highways)
- Structural Components (Retaining walls, Overhead Water tanks, Chimneys / Stacks Silos / Cooling towers)
- Industrial and Utility Structures (Power plants)

- 🔗 **Integrity Over Impression:** We prioritize technical honesty and transparency over convenience—our reports, designs, and audits speak facts, not formality.
- 🔗 **Data-Driven Decision Making:** From NDT results to detailed analysis, every recommendation is backed by engineering logic, not assumptions.
- 🔗 **Comprehensive Expertise:** We offer complete structural solutions covering design, audit, testing, rehabilitation, and detailing under one roof.
- 🔗 **Technology with Purpose:** CAD-based detailing, digital documentation, and code-driven design workflows ensure accuracy, consistency, and efficiency.
- 🔗 **As-Built Accuracy:** Equipped with advanced surveying and measuring instruments, we prepare precise as-built drawings and conduct detailed site assessments.
- 🔗 **Global Perspective:** With a vision aligned to international standards, we aim to deliver engineering solutions that meet global benchmarks in safety, sustainability, and performance.

WHY US . . .

“Engineering is our skill. Consultancy  
is our commitment. Excellence is our  
culture.”
